

SQUARE ROOT OF IMPOSSIBLE

{Verse 1}

Where's the world that you
created
And the stories that you painted
With words that made me feel 10
feet tall?
Where's the magic in the
moonlight
The surprise hidden in plain sight?
No, I don't see much to inspire
much at all

{Pre-Chorus}

And I'm ready now to fly away
And gravity won't get a thing to
say
It's my choice if I
Get to touch the sky
Is it possible
That the square root of impossible
is me?

{Chorus}

It's so possible
Watch me rise high above my
obstacles
Watch me become who I'm
supposed to be
Oh, the possibilities
'Cause the square root of
impossible
Is possible
In me
In me

{Verse 2}

No, don't underestimate me
I don't need a hero to come and
save me
Just 'cause I'm small don't mean
that I can't kiss the clouds
I might not be there yet
But I'll get there, bet on it
'Cause I'm already three feet off
the ground

{Bridge}

Shut the windows and lock the
doors
I'll take the roof off and then I'll
soar
The rules that are written
Are just the beginnin'
There's more, so much more

{Pre-Chorus}

Don't tell me there's too far to go
I know that I'm unstoppable
I'm ready now
Nothing's gonna slow me down
'Cause finally I see
Finally I see

{Chorus}

It's so possible
Watch me rise high above my
obstacles
Watch me become who I'm
supposed to be
Oh, the possibilities
Don't tell me it's too far to go
I know that I'm unstoppable
'Cause the square root of
impossible
Is me
Is me
